Dear Lowen

I would like to take this opportunity to thank you for your assistance and direction with the recent Brand Development exercise for Ennio International. We arrived at a succinct and concise Brand Identity that we all believe will 'Differentiate' us from our competitors and 'Resonate' with our customers all over the world.

From a Marketing viewpoint, I found the exercise most beneficial. The Brand Identity Development Workshop involving our Management Team and Board Members provided a forum for a wealth of diverse information to be streamlined into one strategic direction.

It was a pleasure to work with and learn from you during the process and I look forward to drawing upon your expertise throughout the implementation phase.

Yours sincerely  
ENNIO INTERNATIONAL
